

The logo icon consists of a stylized building facade. It features a vertical stack of rectangular elements on the left side, resembling a window or door frame. To the right of this frame is a solid black rectangular area with two small white semi-circles at the top, suggesting a window or a decorative element. Below this black area are three vertical rectangular sections, each containing a white semi-circle at the bottom, representing architectural details or windows.

ESTATE

This is an inverted version of the logo icon described above. The background is black, and the architectural elements are white. The vertical stack of rectangles on the left is white, and the semi-circles at the top and bottom are also white, creating a high-contrast, negative-space effect.
